Projects

- **Liri Node Bot** **03/2018**
A command line node app that takes in parameters and displays data. User enters commands; 'my-tweets' which displays my latest tweets, 'spotify-this-song' and 'movie-this' with a song or movie to search or 'do-what-it-says' which reads the txt file and performs that search.
- **Train Scheduler** **02/2018**
Uses Firebase to host the arrival and departure data. Retrieves and manipulates information with Moment.js. Website provides information about the train entered.
- **Crystal Collector** **01/2018**
An interactive game where the user selects a jewel and tries to get as close to the random number displayed without going over. Will dynamically display the wins and losses as the user plays.
